

Read Exodus 2:1-10

It seems clear that God protected Moses and placed him in the palace for His purposes. Can you point to a person or experience that gave you the feeling you were special, and God had a plan for your life? If so, when and who?

The burning bush for Moses was a breakthrough moment in his life. It was a moment when he distinctly heard God calling him out of the safe zone and into the faith zone. Have you experienced a burning bush moment (spiritual breakthrough) in your life? What was it and how did it impact you?

Moses first step in God's plan was to go back to the place where he had previously failed. Is there a person or situation you have avoided because of a negative previous experience? What was it and what do you need to do about it?

Moses second step was to leave his comfort zone and step into the unknown. In what ways has comfort held you back from stepping into the unknown? Is there a specific area of comfort in your life right now that you need to leave behind?

Moses third step was trusting in God's power and plan rather than his ability? In what ways are you allowing the uncertainty of the future and your ability to keep you from stepping into the faith zone?

Read: Exodus 33:12-16

The secret to Moses courage, wisdom and leadership all seem to hinge on his response to God in this passage. He seems to understand that it is the presence of God that gives Him the power to lead. In what areas of your life do you need to start responding like Moses, "If your presence does not go with us, do not send us..." In what areas of your life are you operating on your power rather than His?
